## Careers Pathway

### Year 13: Refinement

- Refining their knowledge in their chosen career pathway and ensuring their academic progress and career exploration are broad and deep to support a successful application for their next steps.
- Supported with expert guidance on applications for UCAS, Apprenticeships and the workplace including crafting personal statements to reflect the learning they have from their careers education in the previous years.
- Signposting and support students to utilise open days, summer schools and resources to develop a clear rationale for their next steps and ensure they have every success over the next few years.
- Opportunity to develop leadership of self and others so they can conduct a successful interview and manage the challenges ahead skillfully.

Onward to  
your future...

### Year 12: Awareness

- Enhance their knowledge and exposure to a variety of educational and career pathways.
- Take part in bespoke societies focused on key careers pathways to ensure students have insight and exposure to industry.
- Complete a work experience placement, pathways evenings and events where they can hear from industry experts, admissions teams and individuals who studied in different areas.

### Year 11: Commitment

- Implementing their career plans and preparing to apply for Post 16 options.
- 1:1 careers guidance to secure plan of how to secure their next steps.
- Opportunity to hear first-hand from individuals who have pursued the key pathways of Higher Education, Apprenticeships and Employment.
- Complete work experience and volunteering opportunities bespoke to their pathways.

### Year 9: Inspiration

- Preparing to choose their KS4 options and actively pursue their career interests.
- Exposed to pathways post 16 and how different options may support this.
- Develop communication and presentation skills.
- Exposure to industry experts and Higher Education during careers events.

### Year 10: Immersion

- Learn how their subjects relate to the world of work through lessons and work experience placements.
- Develop professional skills through communication and presentation skills as well as academic skills such as organisation, leadership of self and preparedness.
- Develop knowledge of Post 16 options guidance including Higher Education and Apprenticeships.

### Year 8: Exploration

- Understand that skills are key in the contemporary workplace.
- Exposed to a wider range of industries and experts.
- Learn about how their learning connects to the workplace and develop academic curiosity.
- Exposed to Higher Education.

### Year 7: Transition

- Learn key skills such as self-evaluation to utilise careers opportunities.
- Develop awareness of range of employment options.
- Utilise Unifrog and the Locker reflections.

Your journey at  
LAHC begins...
